EXCITING NEWS!

Power Technology Inc. to Launch Todaair Cloud-Based Network Products

Power Technology Inc. (PTI) is excited to announce the upcoming arrival of **TODAair**'s advanced cloud-based network products. Designed to meet all your connectivity needs, these innovative products will soon be available, offering enhanced performance, ease of installation, and remote management capabilities at an affordable price.

HIGHLIGHTED PRODUCTS

ROUTER

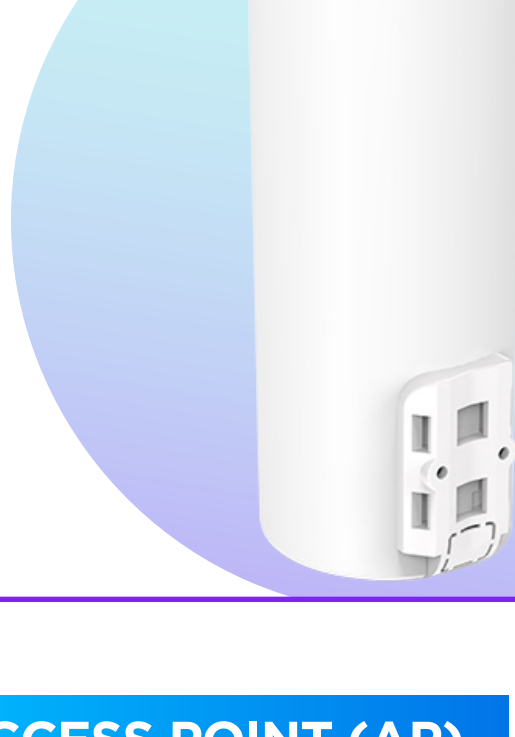

TD-MRT42-V40.1

WiFi6 1800M Indoor Wireless Mesh Router, featuring 10/100/1000 Mbps speeds and cloud management, perfect for creating robust indoor networks.

ROUTER

TD-MRT45-V40.1

WiFi6 1800M Outdoor Wireless Mesh Router, with IP44 rating and cloud management capabilities, ensuring seamless outdoor connectivity.

ACCESS POINT (AP)

INAX35Y-M-H V3.0

Indoor Wireless AP, Wifi 6, Dual Band (5.8GHz, 2.4GHz), 1800Mbps+, and cloud managed, ensuring high-speed and stable connections.

ACCESS POINT (AP)

INAX50Y-H V3.0

3000Mbps Indoor Wireless Ceiling AP, offering superior performance for large indoor spaces with cloud management.

ACCESS POINT (AP)

TD-MRT45V40 V3.0

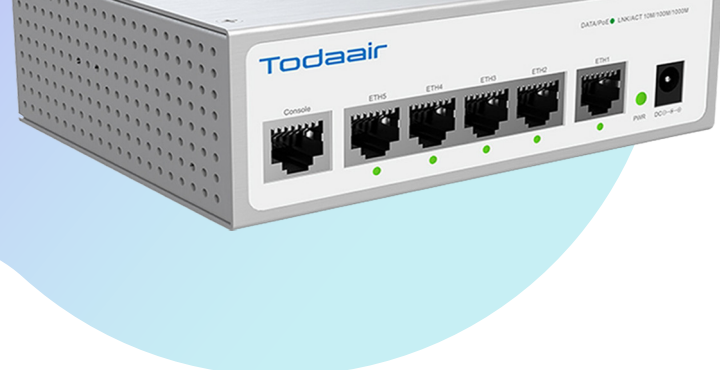

1800Mbps Outdoor Wireless Wi-Fi6 AP, IP44 rated, providing extensive coverage with cloud management.

GATEWAY

GW8-200 V3.0

Enterprise Gateway Router with Gigabit Ethernet, designed for high-traffic networks, ensuring consistent performance.

GATEWAY

GW8-500 V3.0

Another robust option for enterprise-level networking needs, ideal for extensive installations.

POE SWITCH

TD-SW2G4F V2.2

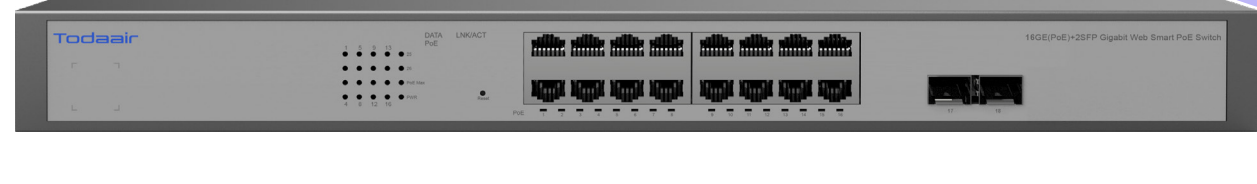

SMART MANAGEMENT 4 Port PoE Switch, 410/100mbps POE RJ45, and 2*1000mbps SFP Slots, with app management for easy configuration and monitoring.

POE SWITCH

TD-SW8G-2F V2.2

SMART MANAGEMENT 8 Port PoE Switch, 8 10/100/1000mbps POE RJ45, and 2*1000mbps SFP Slots, providing powerful performance and remote management capabilities.

POE SWITCH

TD-SW16G-2F V2.2

SMART MANAGEMENT 16 Port 10/100/1000M POE RJ45, with 2*1000mbps UPLINK SFP Slots, supporting extensive deployments with ease of use through app management.

POE SWITCH

TD-SW24G-2F V2.2

SMART MANAGEMENT 24 Port 10/100/1000M POE RJ45, and 2*1000mbps UPLINK SFP Slots, ideal for large-scale deployments with cloud management for remote troubleshooting.

KEY BENEFITS

► Enhanced Connectivity

Utilizing the latest WiFi6 technology for faster speeds and greater capacity.

► Ease of Installation

Simple setup and intuitive management through dedicated apps and cloud-based platforms.

► Remote Management

Remotely monitor network health, identify offline devices, and power cycle devices to quickly resolve issues without needing a physical presence.

► Scalability

Easily expand your network with versatile solutions, accommodating growing needs.

► Affordable Solutions

Advanced features and robust performance at an accessible price point.

Stay tuned for the official launch of TODAair's products, arriving soon at Power Technology Inc. These cutting-edge solutions are set to revolutionize your network infrastructure with their powerful, easy-to-use, and cost-effective technology.
